

Nobody Knows

At SLOW DROP - mindful coffee culture - our vision has been to bring consciously selected produce to you to enjoy by yourself or to be shared with your loved ones, surrounded by a serene and blissful atmosphere.

Our philosophy is to connect with the world while being as regional, seasonal and natural as possible. We carefully chose our vegan and vegetarian food selection, equally with our specialty coffee options, alternatives and fresh ups!

We strive to improve our craft every day to invite you into something outstanding to indulge in slowly and mindfully. Just like the south coast of Crete, where we are surrounded by beautiful raw nature and a serene atmosphere in its purest form: rough cliffs, beautiful widespread beaches, the powerful ocean, strong winds and adventurous gorges. All the elements have an impact on what you will enjoy today.

To create special moments every day we have decided to use exclusively SPECIALTY COFFEE, the highest quality standard in the coffee world. KROSS COFFEE ROASTERS from Chania supports us on our journey with exquisite roasts from comforting chocolaty to exciting elegant fruity flavours.

From the bottom of our hearts we thank you for your trust and loyalty.

And now... please relax and enjoy your slow time.

Yours,
Maximilian and the SLOW DROP Team

***"You are not a drop in the ocean.
You are the entire ocean in a drop."***
